**RE: Applications for Authority to Transfer Control of Licenses and
Authorizations Held by AT&T Wireless Services, Inc. to Cingular Wireless
Corporation (WT Docket No. 04-70 -)Ex Parte Communication**

Dear Ms. Dortch;

The Public Safety Response Center in Tulsa, Oklahoma, stands with The National Emergency Number Association (NENA) in offering its encouragement of the proposed merger between Cingular Wireless and AT & T Wireless Services.

This merger will strengthen the technological capabilities of two major wireless carriers and can only improve upon the ability to implement and deploy the life-saving services of Phase I and Phase II as mandated by the FCC.

This merger will result in enormous standardization within the wireless community. It will provide customers demanding a high-quality coast-to-coast network a choice. The "new" company will have coverage in 97 of the top 100 U.S. markets.

Regards,

Vicki Atchley
GIS and Phase 1 & Phase II
Coordinator
